

# PLE-KIT

Thin-film Power Inductor  
Sample Kit

# PLE Series

## Features

- Thin-film power inductor based on thin-film processing techniques and metallic magnetic materials
- Ultra-compact size contributes to space saving in power circuits
- Low-loss magnetic material makes it possible to achieve low AC loss and provide a highly efficient power supply circuit in solutions that emphasize AC loss

## Application

- Wearable products (wireless earphones, smart watch), small power supply module and low power consumption communication modules using Bluetooth Low Energy
